RIVERA GROUP

We exist to build great things

Some of Our Work

U.S. Army Marketing & Research Group (AMRG) GoArmy Creative Technology Our team of creative specialists, systems administrators and developers supports all GoArmy.com web products and social media efforts and advises on other digital projects that contribute to the U.S. Army's recruiting efforts.

U.S. Army 83rd Reserve Readiness Training Center (ARRTC) ARRTC develops world class leaders, and we support this mission through software and hardware maintenance, simulation support of Command Post of the Future (CPOF) and WAN/LAN operations.

USAID - United States Agency for International Development We manage TraiNet and the Visa Compliance System (VCS), which provides the entry point and approval dashboard for international students and exchange visitors to the United States who seek to obtain their J-1 Visas. We also provide database management, help desk assistance and technical leadership to maintain both systems.

About Rivera Group

Rivera Group is a certified SDVOSB software development and IT consulting firm with deep roots in the U.S. military. Our work spans DoD and Civilian agencies, where we specialize in large enterprise IT solutions. Learn more about our services and products like **EAGLE6**, a predictive modeling tool that protects your IT infrastructure from unwanted behaviors, by visiting www.riverainc.com.

Rivera Group Professional Services
